MIDWIFERY PLATE CCCXLVII. Fig. 1. Fig. 2. Fig. 3.

[HISTORICAL COPPERPLATE ENGRAVING: MIDWIFERY and OBSTETRICS (Plate CCCXLVII)] Category: Medical Anatomy and Obstetrics Visual Description: Classical obstetrical copperplate engraving illustrating fetal presentation, pelvic anatomy, and 18th-century obstetrical forceps. Demonstrates William Smellie's obstetrical mechanisms and surgical instruments designed to assist difficult child deliveries.

[Nemotron Super VL Analysis]: The visible headings include "MIDWIFERY," "PLATE CCCXLVII," and labels for "Fig. 1" through "Fig. 4." The engraving displays anatomical diagrams related to childbirth, with Figure 1 depicting the placenta and umbilical cord, while Figures 2 through 4 show fetuses positioned within the uterus and pelvic cavity. Identified Engraved Figures: * Fig. 1: Normal vertex presentation of infant in anatomical pelvis * Fig. 2: Breech presentation and obstetrical maneuvers * Fig. 3: Curved obstetrical forceps with leather-covered blades * Fig. 4: Transverse lie presentation and uterine anatomy Related Scientific Subjects: Obstetrics, Obstetrical forceps, William Smellie (obstetrician), Pelvic anatomy, Childbirth
