Arabia. in the purſuit of an inviſible foe, who ſcorns his efforts, and ſafely repoſes in the heart of the burning ſolitude. The arms and deſarts of the Bedoweens are not only the ſafeguards of their own freedom, but the barriers alſo of the Happy Arabia, whoſe inhabitants, remote from war, are enervated by the luxury of the ſoil and climate. The legions of Auguſtus melted away in diſeaſe and laſſitude; and it is only by a naval power that the reduction of Yemen has been ſucceſsfully attempted. When Mahomet erected his holy ſtandard, that kingdom was a province of the Perſian empire; yet ſeven princes of the Homerites ſtill reigned in the mountains; and the vicegerent of Choſroes was tempted to forget his diſtant country and his unfortunate maſter. The hiſtorians of the age of Juſtinian repreſent the ſtate of the independent Arabs, who were divided by intereſt or affection in the long quarrel of the Eaſt: the tribe of Gaſſan was allowed to encamp on the Syrian territory: the princes of Hira were permitted to form a city about forty miles to the ſouthward of the ruins of Babylon. Their ſervice in the field was ſpeedy and vigorous; but their friendſhip was venal, their faith inconſtant, their enmity capricious: it was an eaſier taſk to excite them to diſarm theſe roving barbarians; and, in the familiar intercourſe of war, they learned to ſee, and to deſpiſe, the ſplendid weakneſs both of Rome and of Perſia. From Mecca to the Euphrates, the Arabian tribes were confounded by the Greeks and Latins, under the general appellation of Saracens; a name which every Chriſtian mouth has been taught to pronounce with terror and abhorrence.

187 Their domeſtic freedom and character. "The ſlaves of domeſtic tyranny may vainly exult in their national independence; but the Arab is perſonally free; and he enjoys, in ſome degree, the benefits of ſociety, without forfeiting the prerogatives of nature. In every tribe, ſuperſtition, or gratitude, or fortune, has exalted a particular family above the heads of their equals. The dignities of ſheich and emir invariably deſcend in this choſen race; but the order of ſucceſſion is looſe and precarious; and the moſt worthy or aged of the noble kinſmen are preferred to the ſimple, though important, office of compoſing diſputes by their advice, and guiding valour by their example. The momentary junction of ſeveral tribes produces an army: their more laſting union conſtitutes a nation; and the ſupreme chief, the emir of emirs, whoſe banner is diſplayed at their head, may deſerve, in the eyes of ſtrangers, the honours of the kingly name. If the Arabian princes abuſe their power, they are quickly puniſhed by the deſertion of their ſubjects, who had been accuſtomed to a mild and parental juriſdiction. Their ſpirit is free, their ſteps are unconfined, the deſart is open, and the tribes and families are held together by a mutual and voluntary compact. The ſofter natives of Yemen ſupported the pomp and majeſty of a monarch; but if he could not leave his palace without endangering his life, the active powers of government muſt have been devolved on his nobles and magiſtrates. The cities of Mecca and Medina preſent, in the heart of Aſia, the form or rather the ſubſtance of a commonwealth. The grandfather of Mahomet, and his lineal anceſtors, appear in foreign and domeſtic tranſactions as the princes of their country; but they reigned like Pericles at Athens, or the Medici at Florence, by the opinion of their wiſdom and integrity; their influence was divided with their patrimony: and the ſceptre was transferred from the uncles of the prophet to a younger branch of the tribe of Koreiſh. On ſolemn occaſions they convened the aſſembly of the people; and, ſince mankind muſt be either compelled or perſuaded to obey, the uſe and reputation of oratory among the ancient Arabs is the cleareſt evidence of public freedom. But their ſimple freedom was of a very different caſt from the nice and artificial machinery of the Greek and Roman republics, in which each member poſſeſſed an undivided ſhare of the civil and political rights of the community. In the more ſimple ſtate of the Arabs, the nation is free, becauſe each of her ſons diſdains a baſe ſubmiſſion to the will of a maſter. His breaſt is fortified with the auſtere virtues of courage, patience, and ſobriety: the love of independence prompts him to exerciſe the habits of ſelf-command; and the fear of diſhonour guards him from the meaner apprehenſion of pain, of danger, and of death. The gravity and firmneſs of the mind is conſpicuous in its outward demeanor: his ſpeech is ſlow, weighty, and conciſe; he is ſeldom provoked to laughter; his only geſture is that of ſtroaking his beard, the venerable ſymbol of manhood; and the ſenſe of his own importance teaches him to accoſt his equals without levity, and his ſuperiors without awe. The liberty of the Saracens ſurvived their conqueſts: the firſt khalifs indulged the bold and familiar language of their ſubjects: they aſcended the pulpit to perſuade and edify the congregation; nor was it before the ſeat of empire was removed to the Tigris, that the Abbaſſides adopted the proud and pompous ceremonial of the Perſian and Byzantine courts.

188 Civil wars and revenge. "In the ſtudy of nations and men, we may obſerve the cauſes that render them hoſtile or friendly to each other, that tend to narrow or enlarge, to mollify or exaſperate, the ſocial character. The ſeparation of the Arabs from the reſt of mankind has accuſtomed them to confound the ideas of ſtranger and enemy; and the poverty of the land has introduced a maxim of juriſprudence, which they believe and practiſe to the preſent hour. They pretend, that in the diviſion of the earth the rich and fertile climates were aſſigned to the other branches of the human family; and that the poſterity of the outlaw Iſmael might recover, by fraud or force, the portion of inheritance of which he had been unjuſtly deprived. According to the remark of Pliny, the Arabian tribes are equally addicted to theft and merchandiſe: the caravans that traverſe the deſart are ranſomed or pillaged; and their neighbours, ſince the remote times of Job and Seſoſtris, have been the victims of their rapacious ſpirit. If a Bedoween diſcovers from afar a ſolitary traveller, he rides furiouſly againſt him, crying, with a loud voice, "Undreſs thyſelf, thy aunt (*my wife*) is without a garment." A ready ſubmiſſion intitles him to mercy; reſiſtance will provoke the aggreſſor, and his own blood muſt expiate the blood which he preſumes to ſhed in legitimate defence. A ſingle robber, or a few aſſociates, are branded with their genuine name; but the exploits of a numerous band aſſume the character of lawful and honourable war. The temper of a people, thus armed againſt mankind, was doubly inflamed by the domeſtic licence of rapine, murder, and revenge. In the conſtitution of Europe, the right of peace and war is now
